WORCESTER POLYTECHNIC INSTITUTE SCHOLARSHIPS

MORGAN
WORCESTER

ANNOUNCEMENT

**TO THE EMPLOYEES OF
MORGAN CONSTRUCTION COMPANY**

ANNOUNCEMENT

In 1920, believing that the future of New England's industries, and particularly the future of this industry, depends upon a steady supply of technically trained young men, the management purchased four scholarships of the Worcester Polytechnic Institute.

The experience gained through twenty-two years of operation demonstrates that some modification of the regulations originally adopted, is necessary. We therefore substitute the following rules to take the place of those previously issued.

These scholarships, four each year at present, are available to **employees or sons of employees**, under the following conditions:

- 1 Each scholarship covers one year of the course in Mechanical Engineering, Electrical Engineering or Civil Engineering. A scholarship comprises tuition and laboratory fees.
- 2 Applicant, or parent of applicant, must have been an employee of this Company for at least three consecutive years preceding entrance to the Institute.
- 3 Application for a Morgan Construction Company scholarship must be made in writing, addressed to the President of the Company, not later than May 1st of each year in order to be considered by the Committee for the next ensuing school year.
- 4 A certificate of admission, satisfactory to the Institute, will be accepted in the case of applicants for first year scholarships; when, however, the number of applicants

exceeds the number of scholarships available it will be required that the regular entrance examinations be taken that the relative fitness of applicants may be determined.

- 5 The award of scholarships will be made by the Board of Trustees of the Institute.
- 6 While scholarships are granted for but one year, it will be the policy of the Company to recommend reawarding them from year to year to recipients whose work at the Worcester Polytechnic Institute has been of a creditable nature, to the end that the entire course of four years may be covered. Men to whom awards have been made may lose their scholarships if their work falls below a standard rating which is satisfactory to the Trustees of the Institute.
- 7 Recipient of a Morgan Construction Company scholarship is expected to enter the employ of the Company for at least one year after graduation, providing mutually satisfactory terms can be arranged.
- 8 While the Management is pleased to provide the educational facilities above mentioned, it cannot, however, bind itself to give employment, either before or after graduation, to students accepting Company scholarships.

MORGAN CONSTRUCTION COMPANY,

BY PHILIP M. MORGAN,
President.
